Health & Wellness Posters

Now there's a dramatic way to promote wellness in the workplace ... and keep health care costs under control.

It's true. Every year, rising health care costs are a tremendous drain on company profits. Yet management is helpless in controlling the major causes of non work-related sickness such as smoking, drinking, overeating and lack of exercise. Well now there's help.

Health & Wellness Posters is a program that inspires employees to lead healthier lifestyles! Every new poster is designed to build positive attitudes toward health and physical fitness.

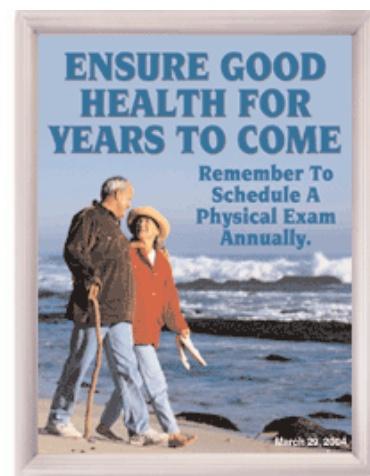

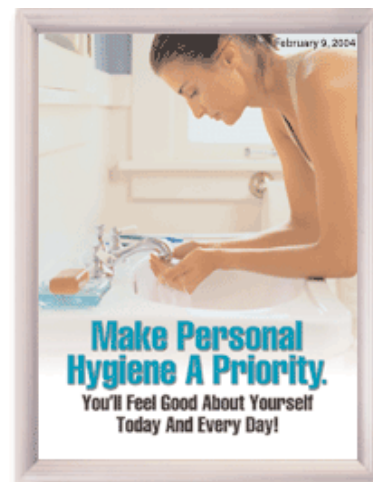

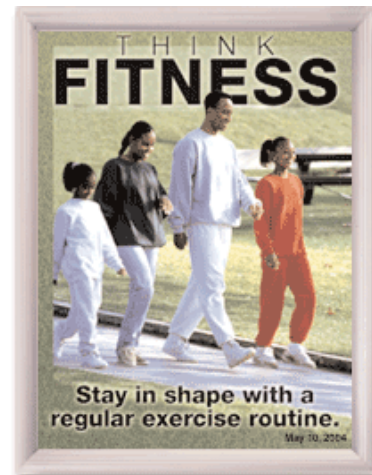

Let's face it, it's difficult to talk to employees about the dangers of smoking, drinking, overeating, lack of exercise and other poor health habits without earning their resentment. So let Health & Wellness Posters do it for you.

It's a fact, the good health of a company is directly related to the good health of its employees, so put Health & Wellness Posters in your company.
